

Education

Linda Wren received a Bachelor of Fine Arts degree from Carnegie Mellon University with a foundation in Graphic and Industrial Design. After 40 plus years as a creative in the advertising field, Linda chose figurative sculpture as her focus in 2021.

Style

Linda skillfully sculpts fleeting moments in time, capturing diverse emotions and expressions. She employs vibrant color washes to imbue her creations with distinctive personalities. The resulting sculptures possess a captivating presence in any room, establishing a profound connection with the observer. Linda's choice of subject matter is guided by the specific emotion or expression she aims to convey. Each sculpture represents a personal challenge for Linda, a commitment to venture into uncharted artistic territories. Linda's artistic journey is characterized by continuous learning and adaptation, as she explores innovative approaches to realize her creative aspirations.

What distinguishes Linda's work is her dedicated focus on authentic and varied expressions, infused with elements of humor, vibrant color palettes, intricate patterns, and tactile textures.
